# A & I

Come along with us for a stroll around the campus. The buildings and palms are much the same as last year, but there is a change in the students going past them. From September to March, A&I was host to the army, its halls echoing to the tread of GI shoes. There is a minority of civilian boys on the campus, and the ones that are here have a way of suddenly withdrawing from classes "to report." Only the girls are the same. But, even with a change in faces, we all still have one aim in mind—a strong determination to end the war as soon as possible and to begin taking our places in a post-war world.

This Book Is . . .

# Dedicated to . . .

EDWARD NEWLON JONES, B.S., Ph.D., LL.D., President of the Texas College of Arts and Industries, whose co-operation, patience, and gentleness have endeared him to the students and faculty. He combines practical efficiency with the foresight and vision of a great educator.

Dr. Jones has a dream for the future, a dream with concrete foundations, which A&I will see realized following the war . . . "A campus enlarged between two and three times the present area and number of buildings. Included will be a new administration and library building as the central campus structure, a union building, at least four more dormitories, new buildings for education and teacher training, engineering, music and the fine arts, agriculture and home economics, business administration, and a new gymnasium. . . .

"A faculty with increasing scholarship. . . . Curricula and degree plans which will provide for the general education of the student, rounding out his personality, while at the same time training him for intelligent and skillful pursuit of his profession or vocation. . . .

"More, much more, of extension service to the public schools, to homemaking and community building, and to the agricultural and industrial interests of South Texas."

This is more than the dream of Dr. Jones, it is a definite plan. A&I is proud to have such a man for its president, and to dedicate the 1944 El Rancho to him.

### John L. Nierman Science Hall

The Science Hall was constructed in 1938. On December 12, 1942, Frank C. Smith, president of the board of directors, announced that the building was to be known as the John L. Nierman Science Hall in honor of Dr. Nierman, head of the Chemistry Department at A&I.

Edward Newlon Jones Auditorium

Homecoming, December 12, 1942, will long be remembered by the students and ex-students present. On that day the auditorium, finished only the day before, was dedicated to Dr. E. N. Jones, President of A&I, in an address by Dr. Homer P. Rainey, President of the University of Texas.

## Scenes From the College Farm

Lounging on "Farmer" Brown's front porch, C. V. Speers, Douglas Whitlow, and Ted Mumme carry on a conversation with small Kyle Brown.

This trio of aggies decided that posing a calf for its first portrait was a troublesome job.

# The Powers That Be

At official faculty gatherings you might hear discussed anything from class attendance to post-war plans for A&I.

OFFICE OF PRESIDENT

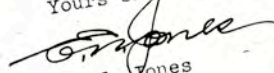

To the Students and Faculty of A. and I.:

Steps along a beaten path are easily taken and in their taking lies some satisfaction. To blaze a new trail, with only an occasional familiar object to guide, is difficult but with its accomplishment comes deep satisfaction. The Editor and entire El Rancho staff have produced the 1944 El Rancho despite overwhelming war-time handicaps. We commend and congratulate them.

Their accomplishment typifies the spirit of the entire College. Our men and women, undergraduate, graduate, ex-student, and faculty, to the number of nearly nine hundred are in the uniform of their Country. The instructional and housing facilities of the College have been used by the War Department in the Army Specialized Training Program. The students on the campus have reacted to a lack here and a change there, cooperatively and with fortitude. The faculty have adjusted to an accelerated program of teaching and have spent much time in committee study. The Board of Directors are making plans for a post-war A. and I. which are challenging and even thrilling.

1943-44--A year steeped in war but abounding in assurance of future accomplishment!

Yours sincerely,

E. N. Jones  
President

# The Social Side of Faculty Life . . .

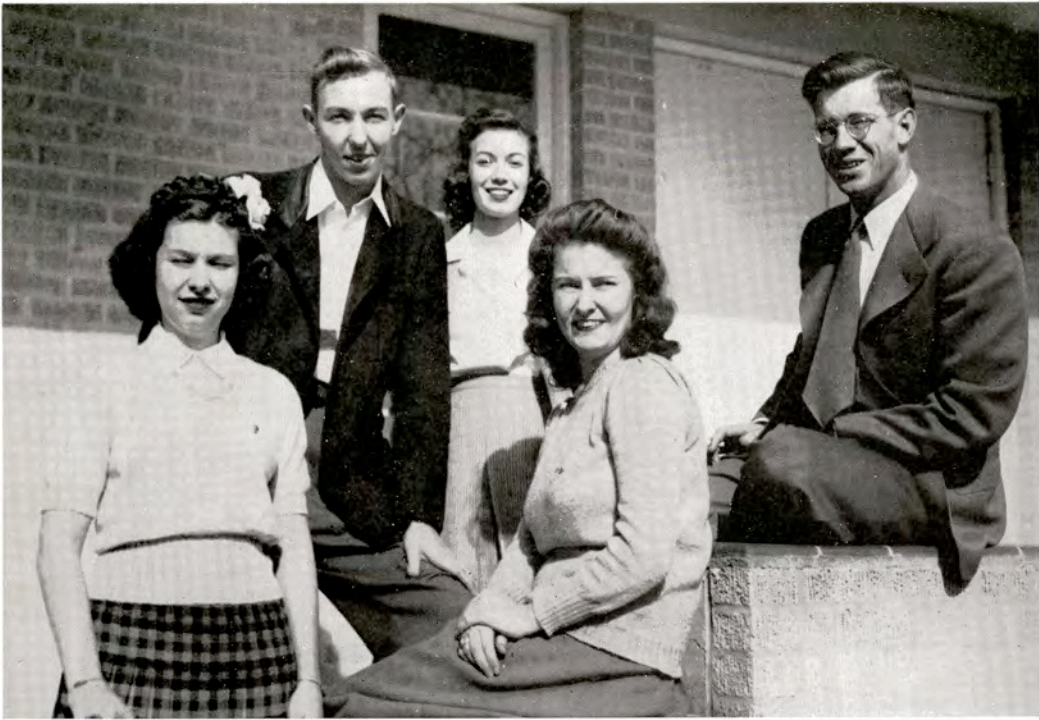

Faculty Wives Teas take place each month in the Lounge at Cousins Hall, and give a welcome opportunity for the introduction of new faculty members. Here Mrs. W. A. Francis pours, while Mr. and Mrs. Jeff Smith reminisce over the early days of the College with Mrs. R. B. Cousins, wife of the first president. That's Miss Frances Alexander in the background.

During the past year, A&I has been the meeting place for the Gulf Coast Executive Council. Dinner in Loftin Hall is always one of the features of the day.

Mrs. Georgia W. Bergeron's Wednesday afternoon Coffees, held in the attractively decorated Student Teacher Conference Room, are traditional at the College. Shown enjoying the refreshments are: Mrs. Harold Brown, Mrs. Bergeron, Elizabeth Rose, Miss Aline McKenzie, Mrs. Walter Williams, Louise Ruckman, Florence James, Johnny Dietz, and Charlotte Persons.

Anyone at all familiar with A&I will recognize this scene from the T-Jac. The characters may change slightly from day to day, but George Simons, Dr. McCulley, and Dean Nielsen are seldom missing from the "coffee club."

# Just Looking Around

One of A&I's favorite spring pastimes is lounging around on the grass. Here Jayne Rhinehart, Billie Bingley, Aurelia Tribble, Dorothy Lawson, and "Gin" Maddux entertain the army and small-fry.

Another Loftin Hall line-up, not quite as impatient as the first. Alberta Boucher and Doris Helen Steele seem more interested in gossip than in food. Carlos Cisoneras seems bored by it all.

There's always a crowd at the door just before lunch in Loftin Hall. Betty Sue Lassiter, Donna Lee Young, Verline Matheson, Lois Smith, Betty Grett, Martha Horne, Pat Weikel, and Bobbie Lee Haynes seem to be the lucky ones.

Filling-up on ice cream at the T-Jac are Mack Murphy, Alvin Hilbrich, Garnot Gillett, Socrates Petrusas, and Jean "Pinky" Davis.

# On The Campus

Prior to the withdrawal of the ASTP Unit in March this was a familiar between-class scene as the students went from the Administration Building to Nieman Hall.

# Registration

Two days loom up each year worse than a trip to the dentist . . . fall and spring registration. You spend hours standing in line, first for your cards, then for the final OK, and finally the trek to the business office. It's a dizzy scramble of changing your schedule all around to get in that lab you hadn't counted on, of squeezing in a P. E. course at the last minute, of finding the class you wanted most to be in already filled up. You're through at last, though—a little tired, but happy over that one free morning you managed. "Classes will begin at 8:00 a. m. tomorrow . . ."

Dr. Manning helps to straighten out whether BBA 101 or 105 is the course needed.

The Home Economics table is always one of the busiest during registration. Those patient figures in the background are waiting for a final card-check.

Wilbert Meyer pays his fee to Connie Nelson, while Bill Strait starts adding up.

LOOKING AROUND

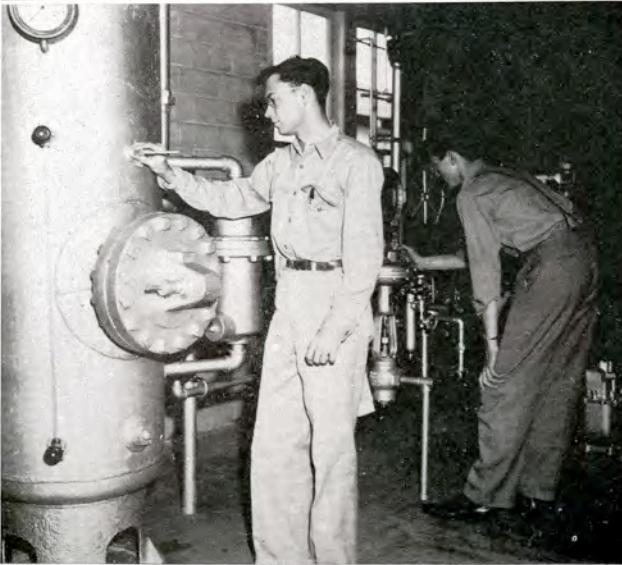

## From Chemistry . . .

Mixing on their own, this home economics class in experimental cooking turns out some delectable results. Merle Stein seems very curious about Fromme's creation—Miss Bible shows her advanced clothing class how to make something extra-special out of a few yards of cloth—a useful accomplishment for pre-war, mid-war, or post-war days!—Ray White, Norman Kosarek, Wilber Meyer, Richard Roman, Mack Murphy, and Charlyne Skipper (with the bow-knot) learn the mysteries of chemistry from Mr. Smith.—Music majors Marjorie East and Aurelia Tribble leave the classics for a few minutes of boogie-woogie.

## To Nursery School

Another popular home economics course is nursery school, under the direction of Mrs. Haun. —Uncle Sam should welcome these hard-working typists with open arms and a large salary. Mrs. Bratcher gives some help to Martha Horne, while Joyce Powitzky, Betty Rainbolt, and Betty Grett concentrate on a timed-writing test.—Durward Emery and Bill Montgomery in the Gas Engineering Laboratory.—Dr. Cross lectures to an attentive anatomy class, that is, all except the one on the table.—There have been various rumors about the identity of the characters on the right, but Cartoonist Schwark refuses to comment.

# Sororities

Fraternities have disappeared from A&I's campus for the duration, but sororities still carry on the College's social tradition. Over on the opposite page you'll see the four organizations in action . . .

Those Alpha Sigma pledges (top left) are just back from their informal initiation—well-goed-up with everything from mud to molasses. There they are, again (clean this time) gathered with the members for a Christmas Party at the Home Economics Cottage.

"Blind-man's buff with a dash of medieval torture for added attraction" is the way these Delta Theta pledges described their chain-gang, but they came back smiling. "Mammy!" might be the war-whoop of the Beta Gamma pledges. (Maybe they're the ones responsible for that black streak!)

Ring-around-the-rosey-a-pocket-full-of-posies—The Delta Thetas stop playing games long enough to have their picture made at the pledge's Kid Party, given in honor of the members. A Kappa Zeta pledge receives a sticky welcome to the sorority from Zo Laechelin.

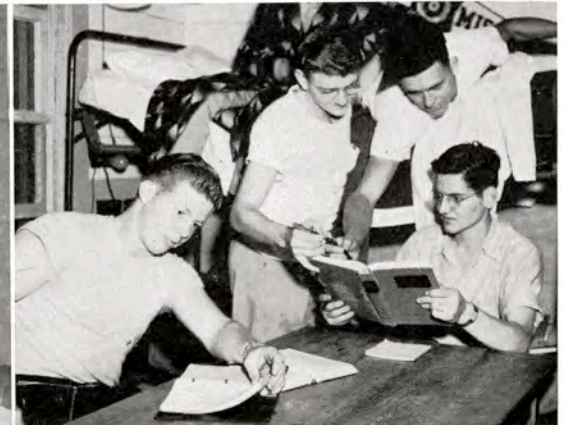

Sororities at meeting-time—Alpha Sigma president, Johnnie Marie Schmidt, prepares to call the group to order.—That must be an important announcement Kathleen Brett, president of the Beta Gammas, is making to merit so much attention.—President "Tad" Brown and the rest of the Delta Thetas seem to be sharing a very good joke.—Members of Kappa Zeta and their sponsors have an informal reception following their formal initiation.

# EDS . . .

A&I's civilian male population may be fast disappearing, but they still manage to play an important part in campus activities. Larry Seymore, Clyde Andrews, Charlie Janota, and Ray White (top row) busy with a bull-session at the Westervelt-Flato House.—A favorite Sunday morning occupation at the Men's Residence Hall, better known as "Tortilla Flat." Shown here enjoying the funnies in "Mom" White's social room are Walter Townsend, Aivin Hilbrich, Len McClagherty, Gerry Chandler, and Norman Kosarek.—Dinner at the Westervelt-Flato House.—Durward Emery tacks up a new edition to his pin-up collection at the Hagler House.—Roger Fore (background) takes life easy during study time.—Another "Tortilla Flat" scene. Mack Murphy, Tommy Hornburg, Garnot Gillett, and Socrates posed for this one.

# CO-EDS . . .

If you've ever wondered what went on behind the scenes in a girl's dormitory—here is the answer. (Top left) Marjorie Craig tries to concentrate on what The Man is saying while Craig-House-hecklers Frances Irwin, Jean Fleming, Helen Cikaneck, Alice Smith, and Stella Peeks listen in.—Busy with gin-rummy at the Smith House are Opal Kruze, "Liz" Rose, Ann Timon, Patsy McClaugherty, and kibitzer Nadine Wildberger.—Lois Clark tries out a new hair style in her room at the Frede House.—"New magazines in" is the cry at the Hargrove House. Lela Merle Peel, Neva Lois Horne, Nelda Shuler, and Gertrude Dodson are shown enjoying them.—Seldom a night goes by in Cousins Hall that someone doesn't entertain with a mid-night feast. In case you're curious that's Coy Manning, Rosemary Blackstock, Judy Keithley, Virginia Bailey, Jewell Heard, Lucille Schaefer, and Kathleen Dodson grouped around the coffee pot.

# On the Social Side

Dances were still being given at A&I this year, but there were some noticeable changes. Uniforms out-numbered sport jackets by a big majority—music was supplied chiefly by a nicklodeon, sometimes by Chester McIntyre's Collegians, and for special occasions the Kingsville Auxiliary Naval Base Band played.

Christmas the campus co-eds gave a party in honor of the naval cadets, which included a reception in Cousins Hall, dinner at Loftin Hall, followed by a dance in the Gymnasium. Over at the left Louise Armstrong, Betty Jo Bennick and Frances Warren bid their dates goodnight. Just below you'll find Doris Steele and Gordon Parr taking part in the waltz contest. "Pee-Wee" Wilberger and Johnny Cooke with that dreamy look as they dance "Stardust." Intermission time finds the crowd impatient for dancing to start.

It's no fair telling (but wouldn't you like to know!) the identity of the affectionate couples on the opposite page. They were snapped at the Press Club's annual Valentine Backward Dance. The girls escort their dates, and either kiss them at the door, or pay a forfeit.

This festive group had their picture taken at the first formal dance of the year. Below is Chester McIntyre's Band, with Chester beating it out on the piano.

Sweethearts on parade—Jewell Heard of the Aggie Club; and Barbara Wilkinson of the Press Club, getting her posies from Vice President Roger Fore.

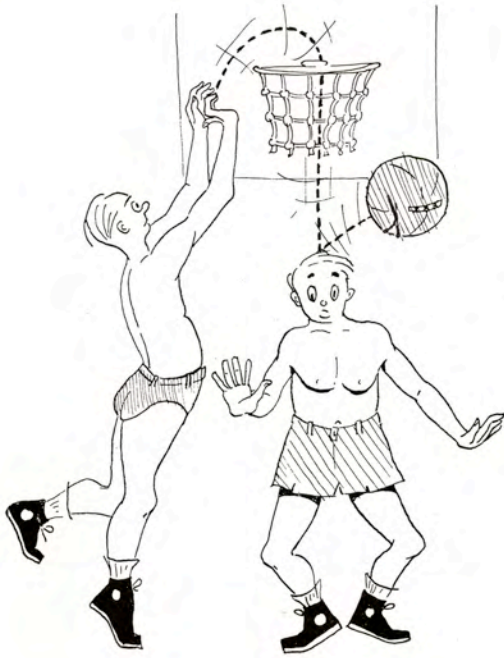

Time out at the Aggie's Barn Dance, one of the big events of the year. That's Aggie President Doug Whitlow tipping his hat to the cameraman.

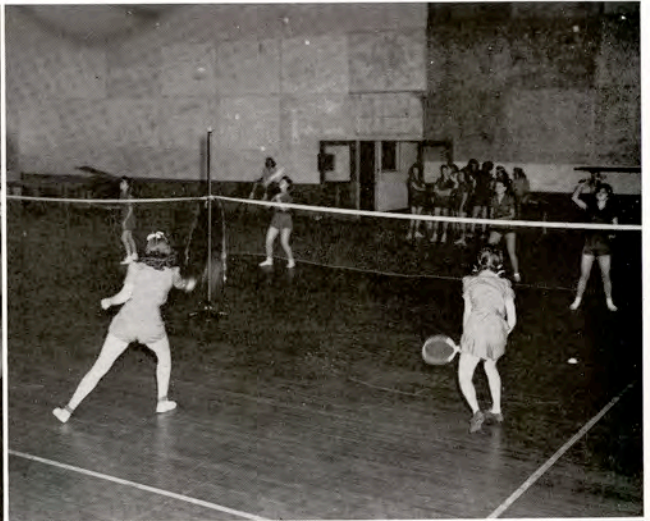

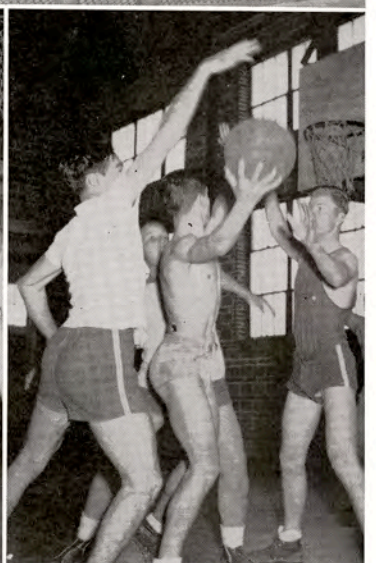

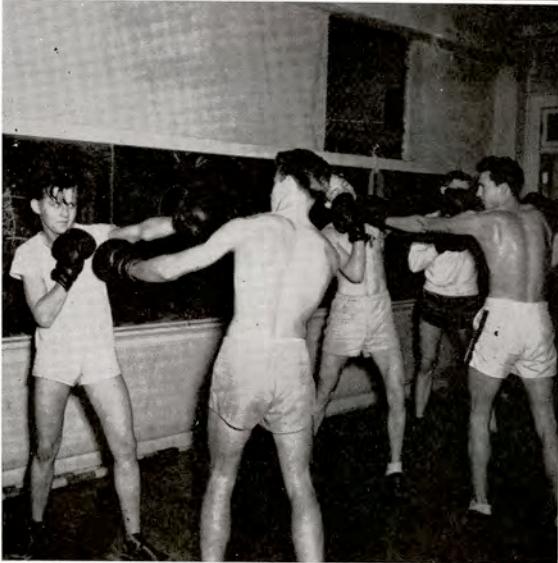

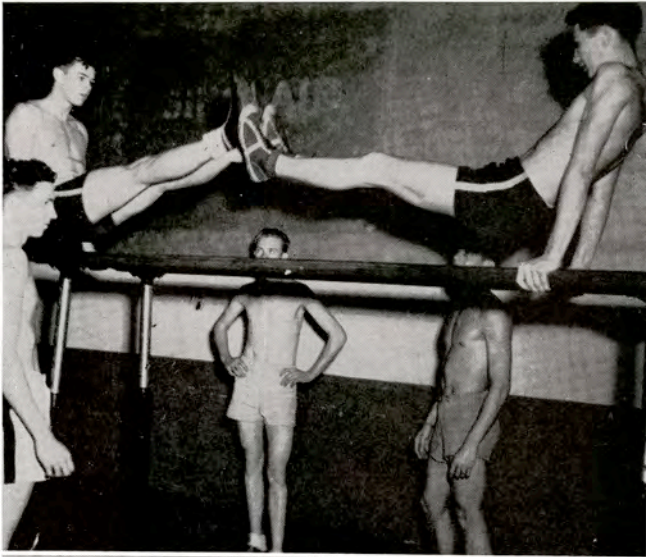

# Physical Education

Athletics were greatly reduced at A&I this year. Football has vanished for the duration, and basketball is the only remaining major sport. Some things still go on as before though, much to the freshmen's disgust—drill and more drill, tumbling, and an obstacle course to run. But on the brighter side there are the College's excellent tennis courts, swimming pool, and new gymnasium equipment.

# CAMPUS CANDIDS . . .

Mrs. Walter Williams entertains a group of Press Club members at her home—Nixon, Porter, Mahoney, Wilkinson, Schwark, and Burks.—Scotty, Mac, and Tunky talk over old times with Melvin Baer, former A&I student.—Carl Sandburg, who appeared on the Artist Course series this year, inspects Farmer Brown's spineless cacti.—Dean Nielsen and President Jones hear what Rotary speaker, Simon Davidian, has to say on Russia.—Pianist Egon Petri offers some advice.—Between classes in the Ad Building, Jo Lewis seems very sour about something.—"Tad" Brown supplies some information to Florence James in the registrar's office.

# FROM HERE AND THERE

Lt. Bert Haynes, A&I-ex, visits with cousin Bobbie Lee Haynes.—“Tex” Thompson and Marilyn Wooderson planning Saturday night’s fun.—V. B. Lawrence takes Johnnie Marie Schmidt and Frances Warren for a ride.—House-coat meeting in Cousins Hall. Prexy Nona Foster has the floor.—The chorus line-up at the Footlight Frolics.—Billie Bingley, Daphne Littlejohn, Peggy Daley, Florence James, and Frances Krug.—Student teachers Willa Jo Shaffer, Nona Foster, and Louise Ruckman on their way to the high school.—Doug Whitlow congratulates Jewell Heard following her presentation as Aggie Sweetheart.—Packing for a weekend—Frances Warren and Rosemary Schmidt.

# CAMPUS LEADERS . . .

Members of the Convocation Council of AWS meet for a buffet-supper given by Mrs. Alice Y. McConnell. Rosemary Wooderson, treasurer of AWS, seems to be giving a very pleasant report. The Council sponsored a series of convocations for women students during the year, which featured inspirational talks by outside guests and campus speakers. They also gave several social events during the year, including the Big and Little Sister Tea, and two dances in honor of the naval cadets.

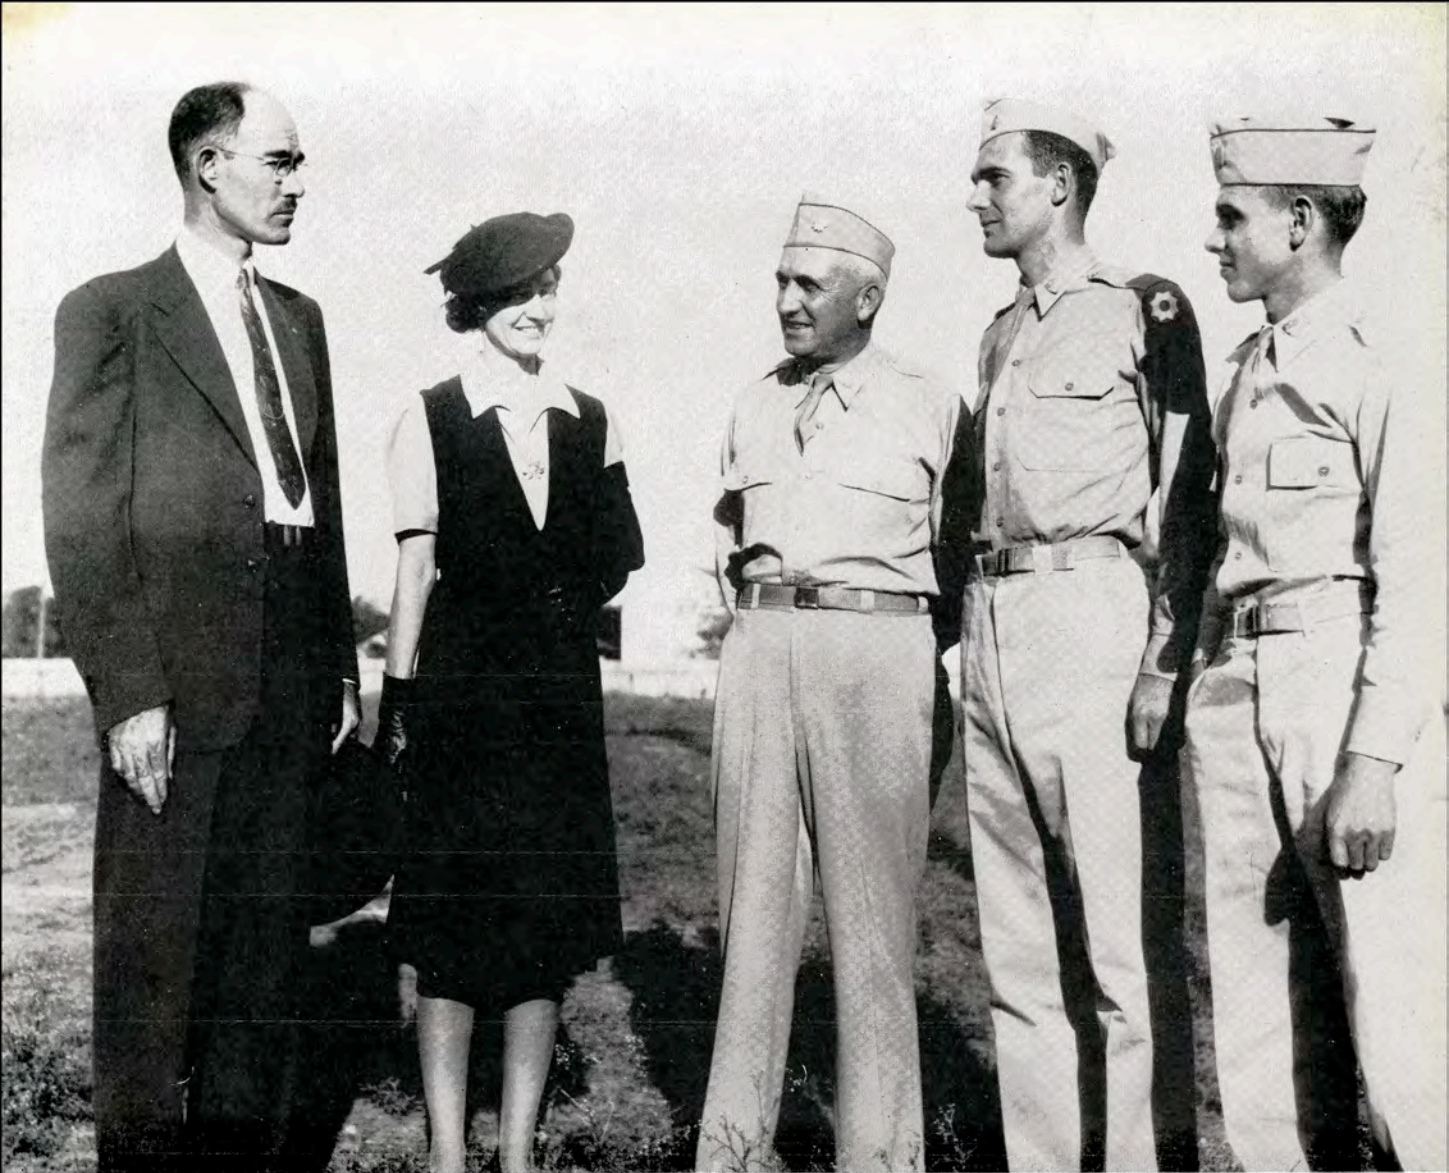

Co-Directors of the Lantana Coronation, Jo Lewis and Daphne Littlejohn, confer on whether there would be enough civilian boys on the campus for Coronation escorts, or whether the navy should be "drafted." The Coronation, held on April 15, came too late for the ASTP men to take part, or for pictures of the presentation of the court to be included in the annual.

An informal meeting of the Student Council, student governing body of the campus. Although several members are absent, Prexy Johnny Dietz carries on with "business as usual." During the year Council members supervise campus elections, decide on student policy, sponsor social functions, and aid in every way possible with college war work.

# *In a Military Way*

Dr. and Mrs. E. N. Jones seen at the first review of the ASTP Unit at A&I, with Col. H. M. Carroll, commandant of the unit until December, Lt. Richard A. Young, Jr., and Lt. Michael Kowalchick.

## Station Complement ASTU

CAPTAIN KURTH B. NELSON assumed command of the Army Specialized Training Unit at A&I in December, 1943, and acted in that capacity until inactivation of the unit in March, 1944. Capt. Nelson, a native Nebraskan, commanded a company of ASTP men at Camp Maxey before being transferred to A&I. There he became acquainted with many of the men he later followed to South Texas. Both at Camp Maxey, and at A&I, he earned a well-deserved reputation for a conscientious attitude toward his duties, a spirit of friendly cooperation toward all who worked with him.

Captain Kurth B. Nelson, Lt. John Hart, Lt. Michael Kowalchick; M/Sgt. Edward Borel, S/Sgt. Francis W. Chaffin, Sgt. Bruce G. Robillard, T/5th Gr. Deward W. Hyatt; Pvt. Eldridge R. Craig, T/5th Gr. Herbert E. Steglich, Pfc. Pete McKay (Not shown is Lt. Richard A. Young, Jr., who was transferred to Camp Hearne in February).

# RECALL

The Army Specialized Training Unit stationed at A&I, was activated September 11, 1943. Organization was under the direction of Lt. Colonel Harry M. Carroll, the first commandant; 1st Lt. Michael Kowalchick, unit adjutant; and 1st Lt. Richard A. Young, Jr., company commander.

Two hundred ASTP men arrived from Camp Maxey, where they had spent the summer undergoing seventeen weeks of basic army training. University of Texas and Texas A&M exes held a good majority, but colleges from all over Texas were represented. A&I itself had seven former civilian students. The other fifty men, drawn from regular service units in various army camps of the 8th Service Command, had had at least one year of college at schools stretching from the University of San Francisco to Cornell.

# BARRACKS . . .

Four minutes to Revielle, and those two fellas are STILL there!

Saturday afternoon, and the mob rushes for the phone booth to make the weekend date. What's married-man McGregor doing at the head of the line?

C. Q. Hines Baker gets his weekly letter off as the boys sign in Sunday afternoon. Eager to get to the books again are (l. to r.) Gibbs, Lerner, Christian, Cpl. Steglich, Norris, Sgt. Robillard, Villesvik, Nickerson, and Tucker.

## Study Hall Questions

1. How did Obenchain smuggle the Petty girls past Sgt. Borel?
2. Where did Van Valkenburg get the Hershey bar?
3. Why is Joe Naruszewicz (you pronounce it bud) shining his shoes? It isn't Friday night.
4. Is Wyron reading a bedtime Esquire story or just looking at the pretty pictures?
5. Why is Wirthlin studying?

The study hall pause that refreshes (while the 1st sergeant is out of sight).

Time: Any night. Place: Seale Hall. Characters (l. to r.): Bill Porter, asking Charlie Heard what "Papa" obviously thinks is a simple question; "Lambie" Reeves, in his spotted pajamas and the well-known study-hall stupor; M. K. Ratcliffe concentrates on the future; Jim Queen, hearing official footsteps behind him, just concentrates. The pathetic character below is anybody's guess.

# CLASSES . . .

Though there are some doubtful faces in his audience, Physics Professor Rasco insists the soldier, too, comes under jurisdiction of the Laws of the Universe.

Daytime study in A-RR. In the foreground: "Tamo" Clemmons is torn between yesterday's history and that of today; Kelly Schmidt drops into that state somewhere between study and stupor; at the neighboring speak-easy Wally Bohannon explains his isolation of a new theory to Hyland.

Jim Murphy gives lab instructor Schmidt the acid test on the sly. Frank Baker continues to ponder concoctions of his own.

Today's experiment: gunpowder, nitroglycerine, T. N. T. Tomorrow's experiment: tomorrow. L. to R. (back of desk) Barrett, Lerner, Thompson, Queen, (front) Kolstad, Miller and haircut, Breeden.

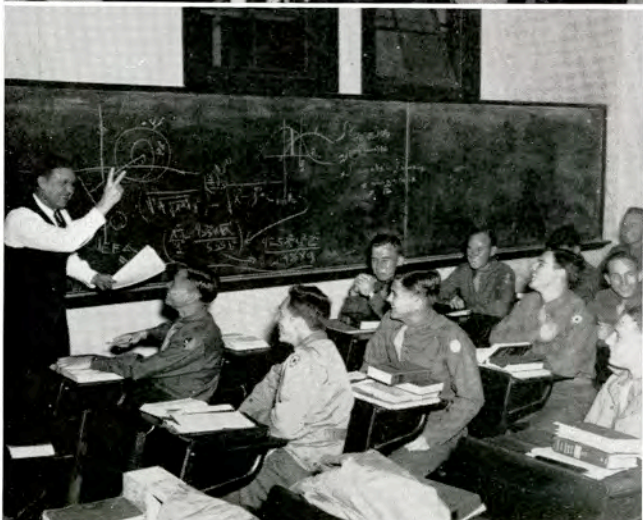

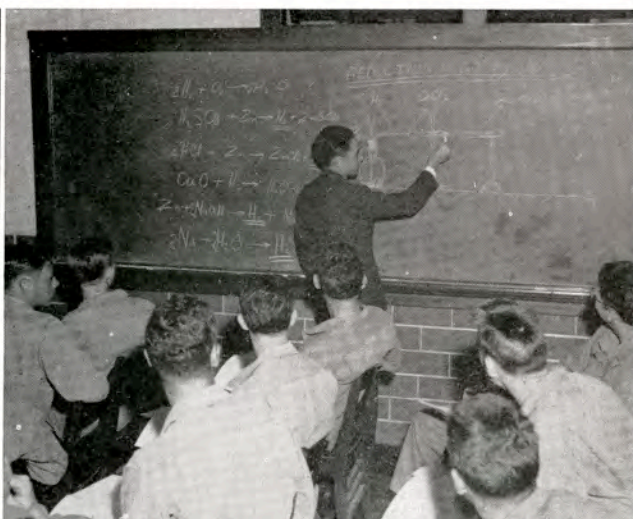

# AND LABS

"You probably won't understand this experiment at first . . .", Mr. Miller tells his Fifth Platoon physics lab. Logic of his statement is reflected by more than one face.

Dr. Perry and his Third Platoon Perrymatics class make the most of an amusing situation in analytics—or don't you believe there is such a thing.

Mr. Schmidt emphasizes to his G. I. chemists that HOT hydrogen must be used—or the reaction won't jive.

Paul Pederson gives the impression someone tried to pull a fast one on him at the chem stockroom. Dr. Nierman lends a sympathetic ear to Mallette, Pederson, "Tex" Thomason, Mildren, Van Valkenburg, Barrett.

## RECALL—

Seale Hall, men's dormitory, was commandeered by the army for the ASTP barracks, and here the student-soldiers lived and learned for six busy months. They got up at six in the morning to make Reveille, marched to meals in Loftin Hall and to and from classes, stood Retreat at 5:30 each afternoon. At least once a week on the A&I athletic field, the unit marched in formal review to the music of the ASTP band. On Saturday afternoons the officers conducted a dress inspection, dismissed the company until the 7:15 study period Sunday evening.

The Fifth Platoon steps out—and it's back to the barracks and away with the books for another weekend.

"Column of files from the left—and the first five men are on mess detail!"

A noontime glance at the "Borel Board" to check over the 1st Sergeant's latest rumors.

"Sir, the parade is formed . . ." 1st Lt. Young, company commander; 1st Lt. Kowalchick, adjutant; cadet commander Bob Wallen; cadet adjutant Bill Sandlin.

RECALL . . .

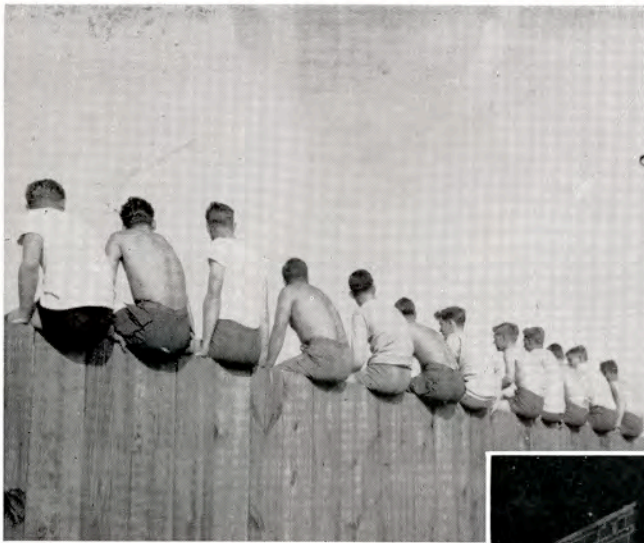

Members of the ASTP were on regular duty, assigned by the army to colleges throughout the nation for training in specialized fields of work, to prepare them for vital positions in an army of technicians. The course of study, contained in a 52-hour week, included eight hours of strenuous and accelerated classwork a day, covering in a 12-week term courses which naturally would take six to nine months. Evening study periods from 7:15 to 9:45 were compulsory every night except Saturday.

What're they doing? Take your choice: (1) policing the grounds (doubtful); (2) looking for a lost quarter (possible); (3) hunting four-leaf clovers (probable). (l. to r.) McGregor, Murphy, Sansom, Perkins, Breeden, Green, Van Valkenburg, Ballman.

This group is obviously indulging in the ancient and honored pastime of a bull-session. Take your choice—women or the latest furlough rumors?

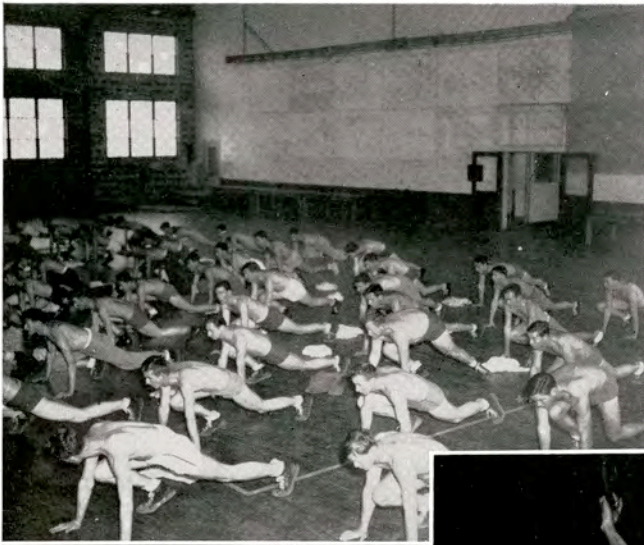

# PHYSICAL TRAINING

FOR THE ASTU

First Lt. Michael Kowalchick and his headquarters staff: (l. to r.) Sgt. Bruce Robillard, Tec.-Cpls. D. W. Hyatt and H. E. Steglich. As Unit Adjutant, Lt. Kowalchick carried the responsibility for the files and records of the organization, official correspondence, orders to and from the Commandant. The headquarters office was located at the main entrance to Nierman Hall, across from the Commandant's office. The lieutenant claimed the "Old Sarge" poster above his desk was added for "army atmosphere."

Master Sergeant Edward Borel holds forth in his Seale Hall Orderly Room. You can tell who he has on the carpet: Johnny Dorman is the only one who has his cap off. Waiting their turns are (l. to r.) Pinkie Temple, Bob Sandlin, and (in the door) Bob Toerner.

First Lt. John T. Hart (right), company commander, and ASTPvt. Thomas Scott concentrate on the task of moving a platoon of men over 2,000 yards of very rough sandbox terrain. Lt. Hart, a native of Noo Joisey, took command of the company Feb. 7. He stressed tactical training during his military instruction periods, introducing some of the newest field tactics to the men.

The company poses for a family portrait on the steps of Jones Auditorium

Adjutant Kowalchick gives 1st Lt. Richard A. Young a farewell handshake as the latter reviews the unit for the last time as company commander. Lt. Young helped to activate the unit in September of 1943, and was transferred to Camp Hearne the early part of February. As company commander he took a lively interest in seeing that the men under his supervision had as much recreation and took part in college activities as often as their strict study schedule would allow.

The weekends come slowly and pass quickly for the ASTRainee. But when they do arrive he has his schedule already made out. First its usually a trip to the barber shop for the luxury of a civilian-day shine. Joe McConnell (left) and Cletus Hines wait in the magazine section, while Lexie Weeks (right) blackly reflects that some sailor's getting all the attention.

Second check-mark on the weekend routine (and it's likely to be checked at least once each day) is the "House of Hits". Saturday, a war picture; Saturday midnight, a murder reel; and today, Sunday, Weekend Weeks buys his ticket for the Drama of the Week.

The third regular stop on the Satsunday beat is, of course, the USO. A few steps on the dance floor, a game of ping pong, and it's time for a stop at the cold-drink counter. (l. to r.) Lerner, Browning, Joan Ramsey, Van Valkenburg, Broadus, and Braden.

## WEEK-END

# TIME OFF

"The First Platoon of the Army Specialized Training Unit requests the pleasure of Miss \_\_\_\_\_'s company at its Farewell Dinner Dance on Saturday, February the twenty-sixth at half past seven o'clock in Loftin Hall." Frank C. Nonnamaker MCed the gala occasion.

Meeting place for those rare off minutes, from 12 to 1 o'clock and from 5:30 to 7:10—when whether you get a shot drunk or a fudge sundae depends on how near the end of the month it is. That's Max Willoughby, Queen, Wuensche, Byron Fullerton, and Murphy at the first table.

This snapshot of Sunday dinner in Loftin Hall missed catching the two chief personalities there—Miss Marjorie Brueske and Mrs. Ann Collier—who served a friendly grin along with each plate.

Between bells in the Ad Building's east hall the ASTPers make the most of the ten-minute break.

Traffic congestion outside Dr. Griffin's geography classroom. Principal bottlenecks seem to be Obst, Hines, Snyder, Serden, and Slayden.

The unit collectively knocks itself out at the introduction of the Lantana Lady candidates. The boys must be laughing at the nomination of Sgt. Borel for Lantana Queen.

Company Commander Young explains how a soldier should write his boss, and vice versa.

#### RECALL . . .

With the drastic reduction in the strength of the ASTP in march, the unit at A&I was inactivated. Thirteen men were assigned to medical training, the rest of the unit being transferred directly to Camp Howze, Texas. Although on the campus for only six short months, each member of the unit took with him memories of people, of things that happened and things he saw and did, that will leave A&I indelibly imprinted on his mind.

Pvt. John P. Porter.

# *The Greatest Resource of All*

In this South Texas area blessed with an abundance of natural resources, the greatest resource of all is the people who make up its cosmopolitan, yet homogeneous population.

It shall be the privilege and good fortune of the majority of you graduates to align yourself with and become one of these fine people. They will offer you much—and it shall be your challenge to offer them much in return. You shall be in a position to make worthwhile contributions to community welfare and advancement through application of the knowledge which you have gained at Texas A. & I. You shall reflect a more gracious, better way of living. In brief, you shall contribute to the humanitarian principles which distinguish culture and civilization from their opposites.

Our country looks to men and women such as you to help bring democracy through a trying period and prepare the way for peace and happiness in the years to come.

## *Who Me---Be President?*

Probably sounds as silly to you as it does to Johnny, because you haven't been thinking of yourself as a "brain trust" or as a future Abe Lincoln. On the other hand, it's not such a silly idea because there's one thing sure, as an American you can darn near be anything you want to be. The road is open and it's up to you how far you can go.

Since it's America you happen to live in and not Germany or Japan, you have the right that every American boy or girl has, to decide what he or she wants to become and become just that . . . whether a farmer, businessman, schoolteacher, doctor, nurse or salesman. That's one of the things this war is all about anyway.

Now you can call that RIGHT anything you like. Some people call it free

enterprise, some democracy, some opportunity, but whatever you call it, it's just a name for the way America works. It's a name for the freedom that gives every American boy or girl the opportunity to build for their future, a future that can't be taken from them. Without this particular freedom of enterprise, and don't let anybody kid you, America wouldn't be where she is today in her high place among the nations.

So remember that if you want to be President of the United States or if you have a desire to be John Doe, plain citizen, with your own business, it's your right as an American under the principle of free enterprise to do just that. This "free enterprise" business is a pretty good deal to look forward to. It's certainly worth hanging on to and fighting for.
