The 1946 El Rancho Is Dedicated In . . .

Memory of . . .

R. E. May, who served as business manager of A&I for over twenty years. Better known to everyone as "Pop," he knew everyone by name and was a great favorite among students, ex-students, faculty and staff members. When he passed away last summer—we lost a friend indeed.

Pop could always find time to talk and joke with students. He loved to see a "real show of spirit" around the campus.

Always the great baseball fan, at one time Pop played in-field at Texas University. He helped open A&I College on June 1, 1925. Whether cashing a check or teasing someone—he was always the perfect example of "friendliness."

We pay tribute to one who helped give A&I its reputation of friendliness and we shall strive in the future to hold up the torch of that friendliness which his reputation has given to us.

Introducing
Our Faculty . .

DR. EDWARD NEWLON JONES was named president of the Texas College of Arts and Industries in March, 1942. Prior to coming to A&I, Dr. Jones was dean of Baylor University and a widely known faculty member of that institution for 17 years. He received his B. S. degree in 1921 from Ottawa University of Kansas; graduate assistant and fellow in botany at the State University of Iowa from 1922-25, and was granted the Ph.D. by that institution in 1925. In 1940 the L.L.D. degree was conferred on him by his alma mater, Ottawa University. He has done post graduate study in Columbia University, as well as the University of Chicago.

A Message for the 1946 El Rancho

We are grateful beyond expression that war has ceased since the 1945 "El Rancho" came off the Press. "Battles of Peace" have replaced those of shot, shell, bombs, and torpedoes.

The Texas College of Arts and Industries, like other institutions and industry, has been reconverting during the past months. It has been a strenuous but pleasant task.

Our efforts have been guided by the consciousness that the men who left the campus to fight for America around the world want, and by all means deserve, the best we can provide for them in the classroom and on the campus. As we give grateful thanks for their return we also bow our heads in reverent tribute to the memory of the seventy-six former students by whose names a gold star has been placed on the Roll of Honor of the College. They would have us "carry on" and that we shall—for them and for the betterment of the Nation for which they gave their all.

A&I goes forward! Her friendly campus will become even more friendly during the years ahead, and the credits earned and degrees granted will increase in value, for a seriousness of purpose and a determination to win the battles of peace prevails.

Most sincerely,

E. N. JONES

He has done graduate work at the University of Chicago and the University of Minnesota. THE TEXAS OMEGA CHAPTER OF

ALPHA CHI

Dedicates This Page To The

Memory Of

MARGARET FAULK

Margaret, president of the local chapter of Alpha Chi when she passed away suddenly on October 23, 1945, also was a member of the BBA Club, Band, and the Beta Gamma Sorority.

A senior at 18, her quiet and gentle ways made her beloved by numerous friends and associates.

It is difficult to make a dedication to a person who is so vivid to all of us, for Margaret will always live in the memories of those who knew her.

AND NOW - "THIS IS IT !"

One of the most dramatic, spine-tingling expressions to come out of World War II was the simple, three-word phrase, "This Is It!"

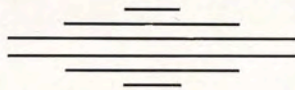

The only way to define such a phrase is to point out that it was that crucial moment when a paratrooper made his first jump . . . when a sailor stepped aboard his first ship . . . when a marine stormed his first beachhead . . . when a fighter-pilot spotted his first enemy plane.

In a different sense, it is that looked-forward-to moment when a college graduate receives his sheepskin and suddenly becomes a definite part of America's pool of man and woman power—the pool from which is drawn tomorrow's executive and productive personnel.

The Texas Gulf Coast has much to offer its young men and women who have acquired a background of formal education. The importance of the area's natural resources, its accessibility, its friendliness, its growing culture, the alert spirit of its towns and cities, the eagerness of its people to work and get ahead—all were emphasized by the war. These same qualities and characteristics will serve in equally good stead now that peace has been restored.

It is the obligation of today's college graduates to accept fully the challenge of a new era of social, political and industrial development, for through advanced study in arts and industries, they have qualified for active participation in creating a better world—one which must be entirely worthy of the tremendous sacrifices made by our valiant armed forces in the conflict just ended.

It is the proud, confident opinion of the management of this company that such a challenge will not go unheeded.
